Corporate and Business Innovation
Don't Hire an Innovation Consultant, Become One

Certified Business Innovation Manager (CBIM)

Globally recognized, designed for managers and employees looking to build a career in innovation, strengthen innovation capabilities and build a better insight for innovation ecosystems. CBIM will help you successfully identify, create and capture new business value information.

Developed by corporate and academic sectors the Certified Business Innovation Manager consists of three (3) different levels built from fundamental to advanced business innovation methodologies, focused on applying concepts to real business issues and projects.

- ✓ Understand systematic methods of business innovation.
- ✓ Identify areas where strategic innovation is required and improve performance.
- ✓ Foster innovation among employees and build a culture of innovation.
- ✓ Create a competitive advantage within your industry.

Over 1500 certified individuals including 100 of 500 fortune companies the **Certified Business Innovation Manager (CBIM)** is the world's leading program for corporate and business innovation.

International Institute of Certified Innovators and Entrepreneurs

The International Institute of Certified Innovators and Entrepreneurs

The International Institute of Certified Innovators and Entrepreneurs (IICIE) is a global organization with presence in North America, Europe, Middle East, Africa and Asia is the world's leading diversified corporate and business innovation institute. The strength of the institute and the certification is not tied to one particular method, standard, geographical area or organization. Diversification of research from academic and corporate sectors combines best practices, methodologies and processes within the fields of corporate innovation.
